Bensalem Township Issues Warning About Fraudulent Email Scams

Bensalem, PA — Bensalem Township is warning residents and local businesses to be cautious of malicious email scams that falsely claim to be from Bensalem Township.

The fraudulent emails often contain links or attachments for fictitious invoices and may urge recipients to take immediate action. These messages are not legitimate and are an attempt to deceive recipients into clicking harmful links or providing sensitive information.

The Building & Planning Department does communicate via email but please be aware that any official correspondence from the Township will come from an email address ending in @bensalempa.gov.

Residents are urged to take the following precautions:

- Do not click on links or open attachments in suspicious emails.
- Verify the sender's email address carefully.
- Report any fraudulent emails to the Township at (215) 633-3600 to confirm if we indeed did send the email.
- Delete the suspicious email immediately after reporting it.

Township officials are working to alert the community and minimize any potential impact from these scams.

For more information or to report a suspicious message, please contact Bensalem Township at (215) 633-3600 or visit www.bensalempa.gov.
